INTERFERENCE SEARCHED

Class **Sub.** **Date** **Exmr.**

19. *Leucosia* sp. (Diptera: Syrphidae) was collected from the same area as the *Chrysanthemum* plants.

A strip of four black and white photographs showing a close-up of a textured surface, possibly a book cover or endpaper, with a vertical crease visible in the center.

Figure 1. A series of four panels showing the evolution of the density field of the dark matter in the simulation box. The panels show the density field at different times: (a) $t = 0$, (b) $t = 100$, (c) $t = 200$, and (d) $t = 300$. The density field is represented by a grayscale map where darker regions indicate higher density.
